

The following sample paragraphs are provided as guides for specification writers who may choose to include a masonry specification “special requirement” for NCMCA certified individuals and/or certified masonry contractors:

SECTION 042000 - UNIT MASONRY

Option #1 (Preferred and endorsed by the North Carolina Masonry Contractors Association)

SPECIAL REQUIREMENTS

A. The work of this section shall be bid and performed by a firm certified as a “North Carolina Masonry Contractors Association Certified Masonry Contractor” as described in the most current version of the NCMCA’s “Guide to Masonry Contractor Certification.” (North Carolina Masonry Contractors Association, PO Box 308, Mount Pleasant, NC 28124, (828) 324-1564, information@ncmca.com)

B. The masonry subcontractor shall at all times when work is in progress, provide an individual from its own staff designated by the North Carolina Masonry Contractors Association Masonry Contractor Certification Program as a “CMP-Certified Masonry Professional” or “CME-Certified Masonry Executive” (as described in the most current version of the NCMCA’s “Guide to Masonry Contractor Certification”) on-site to supervise work in progress.

Option #2

SPECIAL REQUIREMENTS

A. The work of this section shall be bid and performed by a firm who installs masonry under the supervision of individuals designated by the North Carolina Masonry Contractors Association Masonry Contractor Certification Program as a “CMP-Certified Masonry Professional” or “CME-Certified Masonry Executive” as described in the most current version of the NCMCA’s “Guide to Masonry Contractor Certification.” (North Carolina Masonry Contractors Association, PO Box 308, Hickory, NC 28124, (828) 324-1564, information@ncmca.com)

B. The masonry subcontractor shall at all times when work is in progress, provide an individual from its own staff designated by the North Carolina Masonry Contractors Association Masonry Contractor Certification Program as a “CMP-Certified Masonry Professional” or “CME-Certified Masonry Executive” (as described in the most current version of the NCMCA’s “Guide to Masonry Contractor Certification”) on-site to supervise work in progress.
